Target Applications

support SATA, eSATA, and xSATA at 1.5Gb/s, 3Gb/s and 6Gb/s, as well as SAS at 3Gb/s and 6Gb/s. Native SATA ports allow mixing of SAS and SATA drives and offer superior SATA compatibility as pure SATA controllers. Wide (4x to 8x) SAS ports provide a high-performance interconnect to SAS storage systems. SAS controllers (4x to 8x) provide a high-performance interconnect to SAS storage systems. SAS controllers (4x to 8x) provide a high-performance interconnect to SAS storage systems.
